Dear Parents/Carers

SIMS Parent App

I am writing to you regarding an ICT development that The Malling School is currently implementing to provide Parents/Carers with live information about your child's school progress via a secure, fast and reliable Smart Phone App.

Effective parental engagement in schools is key to their success and the SIMS Parent App is the ideal solution. Building on the popular SIMS Learning Gateway, it provides a convenient and accessible way for schools to communicate with Parents/Carers on all aspects of school life.

SIMS Parent App is a convenient phone App that provides secure online access to your children(s) information anytime, anywhere using a smart phone, portable Internet device or with a computer.

Why Sign up?

- ✓ Fast access via Smart Phone App (free download from Apple Store/Play Store)
- ✓ Fast access to attendance, behaviour, achievements, reports, school diary and data collection
- ✓ Push notifications for instant information
- ✓ Computer access via web browser if you don't wish to download the app

All parents/carers will be automatically subscribed to the SIMS App and you will receive an invite via email within the next 24 hours to create an account and download the app. From Thursday 19th May we will no longer be using the MyEd App as a method of communication, all correspondence will be via email and the SIMS App.

If you do not wish to subscribe to the app, please email Mrs Thetford thetfords@themallingschool.kent.sch.uk and she will remove your details for the app registration.

We have created a video with instructions to support with the signing up process, this can be accessed via this link <https://youtu.be/rasqduAQmMI>.

Please contact Mrs Thetford for any technical difficulties signing up to the app.

Yours sincerely

Mr B Chidwick
Senior Deputy Headteacher
