

# YEAR 11 BULLETIN

CARING - DETERMINED - REFLECTIVE

## WHAT'S NEW THIS WEEK?

After school revision sessions begin this week for all year 11 students. These sessions are crucial in supporting our students with their revision as well as offering guidance and support. All sessions run from 3.30 until 4.30.

**TUESDAY: ENGLISH (R18)**

**WEDNESDAY: SCIENCE MASTERCLASS (HALL)**

**THURSDAY: MATHS ()**

Sit with your child this week and list all of their subjects. Which subjects are they least confident in and why? These are likely to be the subjects they need to attend the additional sessions in. Decide together which sessions they will go to and help your child stick to their commitment to attend.

---

## GCSE MINDSET

This week, students will be challenged to think about their effort. Research shows that effort is just a habit, so with some readjustment of routines, every student can improve their effort. On Wednesday, every student will be asked to fill in a timetable showing what they have completed over the past week.

We will then think really carefully about the times of the day when students are the most productive and when they are the least productive.

### WHY DO WE DO THIS?

When faced with an empty timetable and the week they have just had, students are often surprised about their productivity or lack thereof! It's really important that students are honest and can identify their current habits before we consider trying to change them for the better.

Discuss with your son or daughter what the last week has looked like for them? Does it surprise either of you? What does your child spend the most time doing? Perhaps you could discuss ways in which you could support them to use their time as productively as possible.
