Dear Parents/Carers

## CAREERS EDUCATION YEAR 13

As part of our commitment to ensuring that our students make informed choices about their future, Year 12 and 13 participate in careers sessions throughout their time in the Sixth Form in the form of assemblies and group sessions, delivered in period 1 or during free periods.

Throughout their time in the Sixth Form, students will have the opportunity to:

- Research their various Post 18 options including universities higher and further education, apprenticeships, employment and gap years.
- Revise their CV
- Prepare for a mock interview
- Work with others in group work and Selection Day challenge activities
- Research Labour Market Information (LMI)
- Formally plan and report on their (virtual) work placement
- Compose a Personal Statement
- Receive training in applying to university through UCAS
- Receive training in applying for employment and apprenticeships

All subjects incorporate careers in the curriculum, which could be in the form of having an outside speaker in to give a talk or taking a trip out.

## Work Experience

In the Summer Term of Year 12, students took part in a Virtual Work Experience programme, allowing them to explore a variety of careers.

## Mock Interview Day

This provides our students with a taste of 'real life' as local employers and professionals give up their time to provide an excellent interview experience in line with current recruitment trends. Students are carefully coached in advance. Verbal feedback is provided, and a written report is given to students to help them to review their technique prior to future interviews.

## Apprenticeships

Year 12 and 13 students receive information and guidance on applying for apprenticeships. Students are encouraged to register with the National Apprenticeship website and Not Going to Uni website. Some larger companies recruit a year ahead so it's important that students are proactive and check company websites. During year 13,

The Malling School  
Beech Road  
East Malling  
Kent  
ME19 6DH  
Tel:  
01732 840995  
Web:  
themallingschool.kent.sch.uk

students take part in an interactive apprenticeship session led by The Education People. Support is given with applications and interview preparation.

## UCAS

Year 12 IB students receive information and guidance on applying through UCAS and writing Personal Statements. They also carry out extensive research on universities and courses that may be of interest to them. In June, year 12 IB students attend a UCAS Registration Day in which they register online and formally begin their UCAS application. Completion of their UCAS Application is therefore a priority for students during their summer holidays. This ensures that they are ready to submit their application for the final checks before the UCAS deadline in year 13. Students are encouraged to use their free time to research courses and institutions, refine their Personal Statement and complete all details on the UCAS form. Mrs Alexander and the rest of the Sixth Form Team are available to assist students and parents with any queries that they may have. Parents are invited to a UCAS Information Evening to ensure that they remain fully involved in what are life-changing decisions for the students.

## Extra preparation for Oxbridge and Med/Dentistry/Vet candidates

External specialists are brought into the school to prepare Oxbridge and Med/Dentistry/Vet candidates for interview where required.

## Careers Guidance Interviews

Students can have a one-to-one careers interview with the Careers Adviser throughout the school year and are invited to book an appointment by emailing [AlexanderL@themallingschool.kent.sch.uk](mailto:AlexanderL@themallingschool.kent.sch.uk).

Careers Advisers never tell a student what they should do for a career; but will simply point them in the right direction in order to help them to make informed choices. Students are encouraged to take responsibility for their own future by carrying out individual research and keeping abreast of changes in courses and entry requirements. This is an important skill that our students continue to use after they leave school. Careers Education and Guidance is about preparing students for what comes next and encouraging them to take their place in the modern world.

We have purchased some parent guides to give you up to date and detailed information on Post 18 Options, Apprenticeships, Degree Apprenticeships and University, which can be found on the school website in the Sixth Form section.

Yours sincerely

**Mrs L Alexander**  
Careers Adviser
