

16th September 2022
CDM/ssn

Dear Parents/Carers,

Last academic year the school conducted our first Homework focused parent survey and because of this, one of our commitments to improving our communication and support for homework is to host termly homework support clinics.

If you would like to meet with me to discuss homework, I will be hosting parent support sessions on **Wednesday 21st September 2022** in the Hawking Room at The Malling School.

There are two slots available:

1. 08:30 to 09:00
2. 15:30 to 16:30

During these sessions we can discuss anything related to Homework. You may have questions about the expectations, routines or support available or you may just want to learn more about the homework strategies at The Malling School and want to be involved in providing feedback to continue to improve our Homework strategy.

If you plan on attending either of these sessions, please email me directly so that I have a good idea of numbers in each session and so that I can book you in with our reception team.

Upon arrival, please sign into reception.

Yours sincerely,

Mr C Dmytruk
Assistant Headteacher
