

23rd May 2025
CSh/SSn

Dear Parents/Carers,

We would like to invite you to our Year 10 mock exams information evening, taking place on Thursday 12th June from 5:00 to 6:00 pm in the main hall.

This event is designed to give you valuable insight into the purpose and structure of the Year 10 mock exams. These exams play a key role in preparing pupils for their final GCSEs by allowing them to experience formal assessments in exam conditions. They also give staff and pupils a clear picture of current progress and help inform targeted support moving forward.

During the evening, we will cover:

- The purpose of mock exams in Year 10 and how they help prepare pupils for Year 11
- How the school uses mock exam data to support pupil learning and progress
- Practical ways pupils can prepare effectively for their exams
- The range of support the school will offer in the lead-up to and during the mock exam period

A highlight of the evening will be our "Revise With Us" session - an interactive workshop where pupils and their parents/carers can work together on revision strategies led by our teaching staff. This hands-on session is a fantastic opportunity to explore a range of revision techniques and learn how you can best support your child's learning at home.

We strongly encourage all Year 10 pupils to attend with a parent or carer. Your involvement can make a big difference in helping your child feel confident and supported as they approach this important milestone in their education.

Please indicate your intention of attending by completing this [form](#).

We look forward to welcoming you.

Yours sincerely,

Dr C Shirley
Director of Science
Associate Assistant Headteacher

Mrs E Jedrzejewski
Year 10 Pastoral Lead
Associate Assistant Headteacher
